# Jail Programs

## Utah Department of Corrections

*“A State and Local Partnership that Works”*

---

Brian Nielson  
Executive Director

January 2022

Updated Annually

January 21, 2022

This publication has been produced by the Utah State Department of Corrections (UDC), Inmate Placement Program (IPP). The booklet contains information regarding UDC's relationship with county jails in the state, how state offenders are placed in jails, and how the state and individual counties benefit from this relationship.

Any questions regarding the information contained in this booklet, UDC or the Inmate Placement Program in general, please contact me at (801) 330-8946.

A handwritten signature in cursive script that reads "Daniel M. Chesnut". The signature is written in black ink and is positioned above the typed name.

Daniel Chesnut, Director  
Inmate Placement Program  
Utah Department of Corrections

# JAIL PROGRAMS IN UTAH

## A State and County Partnership That Works!

### IPP Vision:

Inmate Placement Program envisions a culture where we partner with the local Sheriff's Office's, where honor, accountability, and integrity are reflected. In so doing, we foster an environment rich in professionalism, compassion, collaboration, and dedication. Together with the local Sheriff's Office's we are a fair, focused, innovative, and energized team.

### IPP Mission:

Inmate Placement Programs dedicated team of professionals ensures public safety by effectively managing contracts and state inmates housed in the county jails. This is accomplished by maintaining a close collaboration with the local Sheriff's Office's. Our team of Inmate Placement Program staff along with the local Sheriff's is devoted to providing maximum opportunities for inmates to make lasting changes through accountability, treatment, education and positive reinforcement within a safe environment.

### Background of Jail Contracting

The Utah Department of Corrections and the 26 counties that operate jails across the State have formed a cooperative relationship serving all the citizens of the State. There have been significant savings through this relationship within their criminal justice systems while improving public safety.

For a number of years, the State prison system has rented county jail beds to house prison overflow. Originally, this was a small-scale operation using temporarily unoccupied beds in the counties. In recent years, counties have built many more beds than they will need in the foreseeable future so they rent them to the State of Utah.

In 1993, Corrections was contracting for 117 county jail beds. In FY 2021, Corrections was funded to house 1517.

## Benefits of Jail Contracting

### STATE OF UTAH

The State of Utah has realized many benefits from participating in county jail contracting.

- 1) Cost savings for the State are dramatic when you consider the cost if Utah were to build prison space for the currently contracted and funded 1,517 beds.
- 2) By contracting with the counties for prison housing, the need for additional State full time employees is reduced.
- 3) Inmates can be housed in their local areas near families, jobs and community ties.
- 4) Jail contracting allows the State to provide for inmate protection and house state inmates in smaller, more manageable groupings.

### LOCAL COUNTIES

During 2021 twenty of the 26 counties (77%), operating jails in Utah, participated in jail contracting. This is evidence of the benefits realized through this state/local partnership.

- 1) The primary benefit for counties is the infusion of funding to help establish effective jail systems and to expand resources for future local growth.

The cost of jail expansion often is beyond the revenue stream of small counties. Finding ongoing funding sources to help pay off construction bonds is a necessary component of any expansion in jail space. The State of Utah offers a solution by contracting for beds in local jurisdictions. The funds generated by these contracts can then be used to offset the cost of construction.

State inmates housed in county jails also contribute significant labor which helps reduce the costs of operating the county jails. In addition, inmates have assisted in the construction of county jail facilities saving substantial dollars on jail expansion projects.

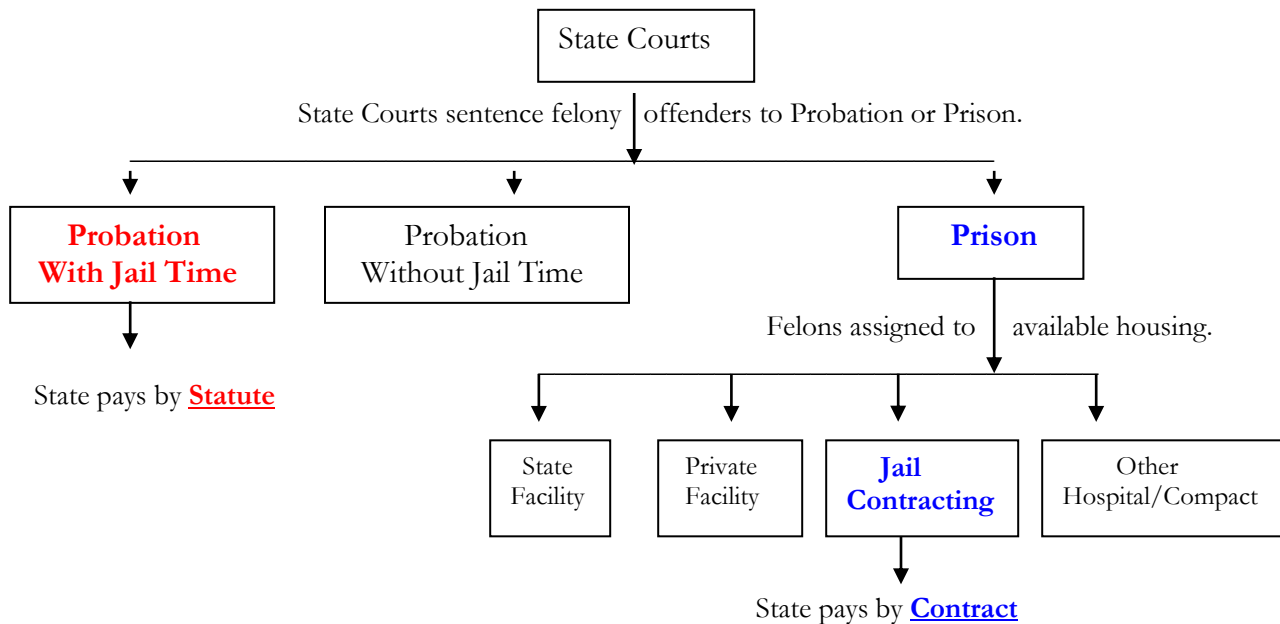

- 2) The overall economy of counties participating in contracting has been improved through the infusion of state funds. In some areas, the county jail has become a significant employer.
- 3) Contract inmates in the county jails provide labor for important community projects, such as repair of county facilities, assistance to the forest service and many community projects.

**How do state-sentenced offenders end up in local county jails?**

There are several ways that offenders sentenced by state courts end up in local county jails. Below is a diagram that outlines the two major programs under the State's Jail Program System.

Felony Offenders

Sentencing, Condition of Probation, Jail Contract Housing

### JAIL CONTRACTING FY21

- Courts sentence to prison, not jail.
- County participation is voluntary and by contract.
- Board of Pardons has jurisdiction of inmate.
- Bed cost is by contract for 66.23% of the final state daily incarceration rate as approved by the Legislature, 83.19% for Contract Facilities with UDC approved Substance Abuse or Sex Offender Treatment Programs, and 74.18% for Cognitive Behavior/Vocational Training (HB157).
- Medical and transportation costs are Corrections' responsibility.

### JAIL CONTRACTING

Offenders who are housed under jail contracting are sentenced to prison by the court. The Department of Corrections refers the offender to a Contracted County Facility. The Contracted County Facility has the authority to approve or deny the referral. If approved the offender is housed in the Contracted County Facility as a state offender. The Department reimburses each Contracted County Facility for housing these offenders as explained in the diagram above.

## **PROGRAMMING IN THE COUNTY JAILS**

Programming/Class statistics are for FY21. Programs/Classes listed are those active in calendar year 2022.

Due to COVID 19 programming in the county jails was not as productive as in other years as programs in some of the counties the program was shut down temporarily for a month or more.

The Contracted County Jails provide a variety of education, programming, classes, and religious services. During FY21 Contract County Facilities assisted 33 state inmates in earning their High School diploma. 25 in Beaver, 6 in Cache, 1 in Davis, and 1 in Uintah.

FY21 successful transitions from Substance Use Programming for state inmates totaled 182. 91 in Beaver, 9 in Cache, 37 in Garfield, 18 in Kane, 22 in Millard, and 5 in Tooele.

FY21 60 state inmates housed in the contract county jails successfully completed Pre-SOTP, 28 in Kane, 17 in San Juan, and 15 in Sanpete.

FY21 successful transitions from Sex Offender Treatment Programming for state inmates totaled 72. 47 in San Juan, and 25 in Sanpete. Kane began a Sex Offender Treatment Program in FY21, October 2020, but there were no successful transitions due to that start date during this fiscal year.

Due to COVID 19 restrictions many of the counties did not hold HB157 classes for two to four months as they complied with group gathering restrictions to protect the inmate population housed at their jail facility. Others were able to continue using electronic meeting platforms. NOTE: Counties with SATP, Pre-SOTP, and SOTP programs cannot have the inmate enrolled in a HB157 class at the same time they are in the program. Their numbers will be lower for HB157 successful completions. For instance, MRT is included as part of the program curriculum and not counted as a successful completion in these stats for HB157. This should be noted when reviewing the stats for HB157 during FY21.

FY21 HB157 classes had a grand total of 278 successful transitions from various counties for various IPD approved Cognitive Behavioral and Vocational Trades classes.

Counties had 201 successful completions under HB157 for MRT in FY21. 34 in Beaver, 26 in Cache, 8 in Davis, 10 in Duchesne, 6 in Garfield, 8 in Sanpete, 21 in Sevier, 20 in Summit, 25 in Tooele, 13 in Uintah, 25 in Wasatch, and 5 in Washington.

Cache County is the only county to offer Functional Behavior. There were 21 successful completions for Functional Behavior.

Cache and Duchesne County offer NIC Thinking for a Change 4.1. Duchesne however did not start this class until May of 2021 so there were no successful completions for FY21. Cache had 2 successful completions.

Two Counties had successful completions from Victim Impact. 23 in Tooele, and 4 in Uintah. A total of 27 for FY21.

Three Counties offer the Challenge Program class, Tooele, Uintah and Washington. Due to COVID 19 Tooele did not get trained in this class and begin the class until June of 2021. Washington County was not trained in this class during FY21. Due to COVID precautions Uintah County had a 4.5 month shutdown and there were no successful completions of FY21.

Uintah Basin Applied Technology in Duchesne County had 27 successful certificates under HB157.

The following is a summary of the programming approved to receive the funding given by the Legislature for FY21, \$2,209,800.

Approved inmate Substance Use and Sex Offender Programs:

- Beaver: “Beaver Residential Treatment” (B.R.T.) – Residential Substance Use – 12-18 months – 145 participants
- Cache: “Bear River Addiction Therapy” (B.R.A.T.) – Intensive Outpatient Substance Use – 20 weeks for Safety Level 4 male inmates – 16 participants
- Garfield: “Dare to Soar” – Intensive Outpatient Substance Use – 12–18 months – 42 participants
- Kane: “FOCUS” – Intensive Outpatient Substance Use – 12-18 months - 66 participants
  - ❖ Kane: Pre-SOTP – 26 weeks – 32 participants
  - ❖ Kane: Sex Offender Therapy Program – 6-9 months CBI-SO – 24 participants
- Millard: “R-Hope” – Intensive Outpatient Substance Use – 12-18 months - 18 participants
- San Juan: Sex Offender Therapy Program to include Paradigm – 6-9 months CBI-SO – 48 participants
  - ❖ San Juan: Pre-SOTP – 26 weeks – 16 participants
- Sanpete: Sex Offender Therapy to include Footprints – 6-9 months CBI-SO – 22 participants
  - ❖ Sanpete: Pre-SOTP – 26 weeks – 10 participants
- Tooele: “Lasting Outreach Treatment & Understanding Sobriety (L.O.T.U.S.) – Substance Abuse Education – 20 weeks - 12 female participants

Note: Davis: “Jail Substance Abuse Treatment” (JSAT): 6-month program, allows 2 seats for state inmates as bed space permits. Davis does not bill UDC for the use of these beds and it is not a JRI time cut recognized program.

The following amounts were paid for FY21 programming days (SU, Pre-SOTP and SOTP) from the funding granted by the Legislature at the rate of \$13.95 per day per inmate: (Rounded/Average)

<u>Jail</u>	<u>Inmate Days</u>	<u>Average # of Inmates/Month</u>	<u>Amount Paid</u>
Beaver County	49,386	161	\$ 688,935
Cache County	5,153	16	\$ 71,884
Garfield County	17,081	52	\$ 238,280
Kane County	21,206	69	\$ 295,824
Millard County	6,398	20	\$ 89,252
San Juan County	16,892	53	\$ 235,643

  - Extractions Program – Local LDS volunteers
  - Jehovah’s Witnesses
  - LDS Indexing
  - Non-Denominational
  - Native Americans can listen to their chants on tape.

**Beaver County Community Service Projects or Other Savings to Taxpayers:**

- State inmate inside jobs - \$25,000/year

The Beaver County Correctional Facility continues to be aggressive in their commitment to inmate programming. Inmates are screened upon arrival and offered placement in the Residential Treatment Program as soon as openings occur. Beaver has been able to keep their programming beds full. The Residential Treatment Program was recently expanded to 145 beds to accommodate those that need a longer program. MRT has been integrated into the Residential Treatment Program.

Beaver School District has had a great year and revised their curriculum and was successful in graduating inmates with a high school diploma. Beaver County School District also offers a financial literacy class.

The inmate community work crews continue to provide a valuable resource to the county. The crew is able to offer many man hours of labor at a much more affordable price to the local cities and county. The crew is in demand and receives good feedback from the community.

A music program in which inmates are instructed in music theory and playing guitar is offered at the Beaver County Correctional Facility.

Beaver County Jail offers inmates employment with jobs in the culinary, janitorial, laundry, instructional, painters, and inmate work crews. This work program creates a huge savings to the county each year and gives the inmates the tools to become successful upon release.

Life Skills- Thinking for a Change which is a cognitive restructuring class is offered to all inmates with six (6) groups running at a time. MRT is also offered to both SA program participants and non-SA participants.

Volunteers at the facility conduct religious services. LDS Indexing, LDS 12-Step, and AA help inmates at the Beaver County Correctional Facility deal with their needs.

## BOX ELDER COUNTY

Total Jail Beds: 168

Contracted Beds: 40

Available for Housing to Corrections: 10

### Box Elder County Community Service Projects or Other Savings to Taxpayers:

- Sheriff's Dept. Building and Grounds - \$120,000/year
- Inmate Work Crew Internal Labor in the Facility - \$102,000/year

Box Elder County has been successful in the High School/High School Equivalency Program.

The Box Elder County Community Service Program maintains inmate work programs intended to prepare inmates for successful integration into our communities. Work programs benefit the inmate by teaching or reinforcing positive work habits. The program benefits the community by providing labor to accomplish tasks that may otherwise need to be funded by taxpayers.

The jail provides inmates the opportunity to participate in a variety of classes listed above. The jail also promotes an inside work program with work in the kitchen, laundry, and maintenance.

# CACHE COUNTY

## Duchesne County Community Service Projects or Other Savings to Taxpayers:

- Community Maintenance Jobs – approx. \$90,480/year per worker
- Building Trades – Approx. \$226,200/year per worker
- County Fair – Approx. \$3,480/year per worker
- Inside Work Programs - \$15,080/year per worker
- DOT Outside Work Crews - \$180,960/year per worker

\*All figures based on minimum wage and yearly man-hours worked.

The Duchesne County Jail continues to provide high school education through the local school district. Inmates may take this opportunity to further their education by obtaining their high school diploma. Many inmates have taken advantage of this program and furthered their education during their incarceration. Administration and staff at Duchesne County Jail believe education is a key factor for reducing recidivism in our county jail.

The Building Trades program offered at the Duchesne County Jail continues to provide inmates with the opportunity to learn viable skills that will serve them well upon release back into the community. These skills are good trade skills that can help them achieve employment when released from the facility. Inmates finishing the Building Trades program receive a certificate in carpentry. This provides the inmate with substantial advantage of gainful employment. The Work Crew program provides the inmates the ability to work supervised on the outside perimeter of the facility. It also provides increased skills and work ethics returning back into the workforce.

## EMERY COUNTY

- Inside work program - \$125,100/year
- Outside work program - \$150,000/year
- A total of seven volunteers provide 80 hours of service per month at the Garfield County Jail.

Garfield County Jail continues to progress with their "Dare to SOAR" Substance Abuse Treatment Program and After Care Program.

The smaller number of residents in the program and the staff involvement make this a very cohesive and successful unit. The inmates feel that they gain a lot from the relaxed atmosphere. The classes are intensive and cover the many facets of addiction, and the road to recovery and success outside prison life.

As always, the education department at the Jail shines. The diligence of the High School administrators is apparent in the number of successful graduates. The jail has focused on the addiction recovery and a plan to succeed outside the prison walls. The classes and education available are to give viable tools for employment upon release and success in personal and family life.

The road crew and car wash crews are rotated together, the car wash inside and the road crew of four is outside of the facility.

Garfield has produced a CDL class designed to prepare the participating inmate for testing for over the road licensing. They have introduced Building Trades where small buildings that can be transported off the facility are being constructed to specific orders. They have a "Basic Welding" program that teaches a new skill to help with employment as well as a new program for Silk Screening and Embroidery to teach new trades and skills also. This "Graphic Design" class as well as the others is all designed to slow recidivism and help build acceptable lifestyles for those who participate and are released.

Iron County Jail houses ten state inmates for the express purpose of working in the culinary and maintenance departments. The inmates placed here are expected to provide a base stability for the county inmate workers, as the county workers are employed for a much shorter time. The program works well and provides the state workers a steady job and the opportunity to save money for release.

  - Inside Out Dad

Juab County houses up to 15 state inmates on a regular basis. The majority of inmates housed in this jail have established parole dates or are waiting for placement into needed treatment programs offered by the UDC. These inmates are hand selected based on behavioral and offense criteria, as they work in a trustee type position. They are responsible to perform all internal work positions, such as janitor, food service, laundry, and cook. They also grow an impressive garden each year, which is a notable cost reduction for Juab's produce needs.

### **Kane County Community Service Projects or Other Savings to Taxpayers:**

- Inmate work inside the facility – \$45,000/year
- A total of 36 volunteers provide approximately 100 hours of service per month at the Kane County Jail.

The inmates at Kane County have the opportunity to complete indexing for the Church of Jesus Christ of Latter-Day Saints. The information they glean goes to Ancestry.com.

Kane County Jail has developed an extensive and well-organized programming department. Kane County Jail is structured in a Therapeutic Community setting. Jail Deputies/Security staff are trained in the (TC) Therapeutic Community Treatment Model; this provides the highest professional standard of maintaining a secure environment and supporting effective therapy. With the TC approach Deputies working with offenders are better trained and skilled in supporting the overall goal of the program while dealing with this unique population.

### **The Residential Substance Abuse Treatment**

#### **FOCUS:**

The goal of the FOCUS Program is to provide offenders with both sex offense and substance abuse issues quality programming, using current evidence based best practices, motivational interviewing and up to date assessment and measurement tools.

The program has another program within titled "Bigger Than Me". The inmates do projects as a service project for others. The inmates have donated crocheted items for the local care center (the biggest request was for a crocheted bag that buttons on the side of a walker so they can take items with them when they go from place to place), they made Valentines cards for a veteran's center that they could send to their loved ones, and they have donated other art work to the local thrift shop to help them raise money. They have worked on numerous projects benefitting organizations in surrounding states. In some cases, items have even been sent overseas.

#### **Pre-FOCUS:**

The pre-program housing unit gets offenders into the routine of programming and starts them on their way with assignments and reading opportunities. This helps the offender utilize the actual programming time more successfully. They have also incorporated several Cognitive Life Skills classes including MRT (Moral Reconation Therapy) into the "FOCUS" program.

### **Sex Offender Pre-Treatment**

The goal of the SOTP pre-treatment program is to prepare offenders for placement in the main or core sex offender treatment.

### **Sex Offender Core Treatment**

The goal of the Core SOTP program is to prepare offenders to transition into life on the outside. This program helps to reduce the recidivism rate among offenders.

### **General Housing**

Services provided for all offenders housed at the Kane County Jail include; Cognitive Life Skills classes, Education and Leisure/Recreation.

The many facets encompassed in the programming developed at Kane County help offenders prepare for entering sex offender treatment.

- Inside jobs include: Janitor/Tier workers, Laundry, Cooks, Car Wash – \$15,220/year

The Millard County Jail operates two six-man work crews that assist the county and other government agencies with various projects in Millard County.

Adult Education is an important program at the jail. Computer Literacy is also taught in conjunction with the education program.

The Residential Substance Abuse Program continues to be successful at the Millard County Jail. It is a 12-month program in which offenders are assessed and diagnosed to determine specific needs for treatment. Members of the program are housed in a modified therapeutic community, and by peer pressure, are held to a higher than average standard. In addition to substance abuse treatment, the offenders also receive treatment in prescriptive life skills, i.e., Anger Management, Victim Impact, Cognitive Thinking and Relapse Prevention.

San Juan County Jail continues to be very active in programming and educating inmates. The main emphasis continues to be the Sex Offender Treatment Program (SOTP). Currently there are 64 inmates in the SOTP program at all times. The program follows the UDC Sex Offender outline.

Educational classes are offered through the San Juan School District for those needing a high school diploma, or for those students that need to brush-up in certain areas. In addition to the educational classes there are a variety of other classes available in the education center such as computer aided drafting, internal combustion (small engines). The jail has also implemented a musical keyboarding class, jail garden project and the LDS Indexing. The jail garden project has been a great success. The crop helps supplement the jail kitchen with fresh vegetables.

San Juan does not currently have an outside work crew program; however, they have a number of jobs inside working in culinary, laundry, janitorial, sewing and tutoring. The LDS 12 Step program is available, as well as, a variety of religious services. The inmates have been given the opportunity to apply their artistic abilities by painting a number of murals on the walls of the jail.

The inmates at the San Juan County Jail spend countless hours and a lot of talent crocheting various projects such as afghans, hats, booties, and stuffed animals; donating them to the local communities, charities and VA hospitals.

Sanpete County currently houses 68 state inmates, focusing on those that are required to complete Sex Offender Treatment Program prior to receiving a release date, or to keep an existing release date. There is a total of 32 active treatment beds, and the rest of the beds are used for pre and post treatment.

This program is now going into its fourth year, and has been running very well. Sanpete has also expanded in the programming area and now offers Victim Empathy, Anger Management, Thinking Errors and Relationship Skills that work in harmony within the Sex Offender Program.

Sanpete has also implemented a “good time” credit program for their County offenders to meet the new JRI requirements. This consists of numerous cognitive and life skills-based programs.

## Sevier County Community Service Projects or Other Savings to Taxpayers:

- Outside work programs - \$130,000.00/year

Jobs the work crews help with are: assisting with the local Snow College – Richfield and the Black Hawk Arena. They help set up before and clean up after events, as well as any other projects the college and arena may need assistance with. They also do various town projects such as tree trimming, gutter cleaning, cemetery up keep etc. It has been a great year for our work crews, we appreciate all they do.

Another highlight of the work crew is when it snows, Sevier County Jail allows elderly citizens that have difficulty in clearing their driveways and sidewalks to call. The work crews are sent to remove their snow. The elderly is very appreciative of this service.

Sevier County Jail still has “A+”, a very successful computer-based program. It allows inmates the ability to earn their High School Diploma or the High School Equivalency by working at their own pace on individual subjects needed for graduation.

## Summit County Community Service Projects or Other Savings to Taxpayers:

- Inside work program = \$60,000/year
- Outside work program = \$40,000/year

UDC inmates at the Summit County Jail have the opportunity to complete CAP goals by participating in programming, education, and work programs. Religious services are provided for multiple denominations and inmates may volunteer for church projects (Indexing).

Summit County Jail has an inside facility work program that includes culinary, library, laundry and janitorial duties.

Summit County Jail has an outside facility work program for qualifying inmates. The outside facility duties include but are not limited to: greenhouse/gardening, snow removal for county owned properties and elderly/disabled citizens, county owned building maintenance, forest service grounds maintenance, state park grounds maintenance, and UDOT owned property maintenance. They also assist with recyclable and waste material collection from various county departments. The program also helps with community events such as rodeos and the county fair.

The Tooele County Detention Center provides inmates paid jobs in the kitchen and jail library. Tooele offers inmates an opportunity to complete their High School education, as well as a Life Skills classes such as Moral Reconciliation Therapy (MRT) and Victim Impact. For female inmates, the Tooele County Detention Center in conjunction with Valley Behavioral Health offers a Cognitive Behavioral Substance Abuse Treatment Program. Tooele recently hired a therapist who is trained in CBI-SA and is currently conducting sessions for the inmates in the program via Telehealth. Weekly religious services for inmates to attend is also provided by local volunteers.

## Wasatch County Community Service Projects or Other Savings to Taxpayers:

- Outside Work Crew – \$350,000/year
- Inside Work Programs - \$415,000/year

The Wasatch County School District continues to offer High School and computer skills to inmates. Education continues to be a top priority at Wasatch County Jail.

Volunteers dedicate approximately 123 hours per week holding church meetings, drug and alcohol support groups and life skills classes.

The two county work crews continue to be a great success. The crews are involved in a number of jobs that benefit the community. They are responsible for lawn care, snow removal, and general cleaning at 12 county buildings in addition to the Wasatch County Event Center, Fair Grounds, and cleaning of County vehicles. The crews also assist with special events throughout the year.

Inmates continue to volunteer large amounts of hours on projects to help others in need. GOGI also continues to be a great success at the Wasatch County Jail.

The Wasatch County Jail takes pride in teaching fundamental skills such as sewing, cooking, cleaning, and laundry to the inmates as they can use these skills in their daily lives upon their release.

Washington houses up to 15 parolees who have been ordered by the Utah Board of Pardons and Parole to participate in the Parole Violator Program (PVP). PVP is a secure detox program. Program was suspended in March 2020 due to COVID 19 restrictions.

**Washington County Community Service Projects or Other Savings to Taxpayers:**

- Work Crew for Various City/County/State & Federal agencies - \$130,000/year
- Work Crew for construction and landscape savings - \$10,000
- Inside Work Crew for Laundry/Kitchen/Janitorial/Tutoring (based on 30 inmates) - \$300,000/year
- Community Service Hours (County & State Inmates) – 3,900 Hours

---

Washington County Jail continues to provide excellent employment opportunities for inmates. They have active outside work crews that provide many hours to local communities. They also have many inside jobs that help those who are not eligible for outside work. The jail also has an excellent garden that is a great source of produce for jail usage and to supplement fresh produce at the homeless shelter, they also grow pumpkins and donate to local schools. The inmates working in the garden enjoy growing produce and take great pride in what they achieve.

The jail has been working on developing more programming for inmates. The religious community provides many hours of volunteer efforts to help them provide the services they currently offer. The inmates are allowed to enter art projects they have created in the Washington County Fair. There are many ribbons of different colors won here.
